# DATA SHEET

## Product Information and Data

### Product Description

Economic low cost protection which will fit over most prescription glasses. Ideal for visitors or occasional use. Lightweight, durable glasses packed in polybag with UI. **Hard coated** for improved scratch resistance.

### Packing

**12 glasses per box    300 glasses per case**

### Standards

Complies with the requirements of the European Standard **EN166:2001** "Personal Eye Protection"

EN 166 1 F    Suitable for continuous use (Class 1 optical)  
Low energy impact (resists a 6 mm, 0.86g ball bearing at 45 m/s)  
(Maximum protection level available for glasses with sidearms)

EC type examination(s) carried out by: CERTOTTICA Scarl, Zona Industriale, 32013 Longarone (BL). **Notified Body: 0530**

### Instructions for Use

**Eye protection is only effective if correctly selected, fitted and worn for the complete period of exposure to hazards - Read ALL instructions and warnings carefully before use.**

1. Inspect the glasses carefully before use and discard if damaged in any way.
2. Inspect the glasses at regular intervals. If the frame or lenses are damaged in any way leave the area of hazard and replace the glasses. There are no user replaceable parts available for this model.
3. While this eyewear will fit over most prescription glasses this is not recommended where there is a possibility of impact forces being transmitted to the prescription frame.

### Warnings

- This eyewear offers no protection against IR radiation and thus should not be used as primary protection in environments where dangerous levels of IR radiation are present, for example where welding operations are carried out or the casting of molten metal.
- This eyewear offers adequate protection against UV sun radiation but **MUST NOT** be used in areas where there are hazardous levels of UV radiation such as UV curing operations.
- This eyewear offers no protection against sun glare.
- This product is for eye protection against low energy impact hazards but is **NOT** unbreakable.
- **DO NOT** modify or alter the eye protector.
- Pitted or scratched lenses reduce visual acuity and seriously reduce protection levels. Discard eyewear if damaged.
- On rare occasions materials used in manufacture may cause an allergic reaction in susceptible individuals. Discontinue use if affected and seek medical advice.
- Always check with suitable qualified supervisory staff that you have been given the correct protection relative to working conditions.

### Additional Information

**Cleaning:** Clean with warm soapy water and dry with a soft non abrasive cloth.

**Disinfection:** The parts of this product in contact with the skin should be disinfected periodically (at least every 3 months) with a suitable disinfectant solution.

**Storage:** When not in use this product should be stored in a clean dry poly bag in a cool place out of direct sunlight and away from solvents, solvent vapours or corrosive materials. Maximum product life 2 years.

**Damage:** This product should be carefully inspected before use and discarded if damaged in anyway whatsoever.

**Chemicals:** Certain chemicals may have a detrimental effect on contact with this product. If in doubt please check with your supplier.

**Material Declaration:** No parts of the eye protector which are in contact with the wearer are made from materials known to cause skin irritation
